

## Oklahoma Society of Radiologic Technologist, Inc.

### Student Intern Program

The American Society of Radiologic Technologists has encouraged student involvement through a ***Student Intern Program***. The Oklahoma Society of Radiologic Technologists is equally as committed to student involvement so they have created a similar Student Intern program. The OSRT Board of Directors strongly believes that students are the leaders of the future and the OSRT has a responsibility to cultivate them now.

The major difference between the ASRT and OSRT Student Intern programs is that ASRT student interns only serve during the ASRT Annual Conference. Students selected for the OSRT Student Intern Program will serve for one year – from August to August. The prolonged service period for OSRT student interns should facilitate strong relationships, a fundamental understanding of organizational operations, enhanced leadership skills, and hopefully a commitment to continued service to the profession.

OSRT student interns will be assigned to shadow an officer, a committee chairperson, or a contracted staff member. Shadow experience is designed to offer opportunities to gain organizational and professional insights and provides a mechanism for valuable input on health policy issues, educational issues, and organizational operations that effect all medical imaging and radiotherapeutic students and professionals in Oklahoma.

**OSRT Student Interns will receive a free OSRT student membership, free Annual Meeting registration, free registration to the Mid-Year Seminar, and a free shirt designating them as an OSRT Student Intern.**

## **Student Representative to the Board of Director**

### **Duties, Responsibilities and Benefits**

- Liaison for all medical imaging students for the OSRT
