

Tyler Armstrong candidate for Vice President

As VP of the OSRT I will do what is needed to assist the President and the rest of the board as needed during board meetings and the Seminars. I can use the experience that I obtained as an OSRT student intern to aid me in this new endeavor and help me become the best representative that I can be. I will use my position to raise awareness for our profession and how important it is that those who are performing these exams have the proper training and education. This of course can be accomplished through licensure and I know that this is one goal of the OSRT. I will use my position to help better serve not only the radiologic community but also the citizens of the great state of Oklahoma. It would be an honor and a privilege to serve the OSRT as Vice President.
